Domain Four: Participating in a Professional Community

While at Timberline, I participated in various Professional Development meetings. Some were staff-wide, looking at AVID lessons to utilize in the classroom, while others were department meetings, discussing future plans and moments of collaboration to ensure success. Lastly, I was in a PLC that focused on looking at various pieces of technology as tools and resources for better engagement and student management in the classroom. The artifact below is a review of my performance within the professional communities, demonstrating my engagement and level of involvement.
